Main Road, Bangalore-560094**

**Subject: MR-X developed by japan Technology on plants, flowers and Agricultural  
Commodities permission for import-Reg:**

**Sir,**

**I am directed to refer to your letter No.SIPL/ INM (D) /MR-X/02/2011-2012 dated 13.9.2011 on above cited subject and say that your proposal was examined in the Ministry. It was observed that the product proposed to be imported is a soil conditioner and not a fertilizer. In this regard it is to say that there is no provision in FCO, 1985 to grant permission for import of soil conditioner products. Therefore, it is not possible to accede to your request.**

**(Dr. Ramesh Kr. Sharma )  
Deputy Commissioner (INM)**

# MR-X LIQUID

## **Benefits of the product:**

- By applying MR-X the productivity increases by almost 100%
- Nutritional values increase, stronger fragrance.
- Weight of product Increase.
- Consumption of **Chemical fertilizer** is minimized.
- Consumption of manure in case of organic products decreases. In case of rice, 50% decreases.
- The plant's immunity towards possible disease increases. In case of cucumbers, thorns become long and strong and leaves are thicker. Therefore MR-X minimizes the plant to be infested by vermin (harmful insects)
- MR-X improves (produces better) odor, taste and colour of the fruits or any products from the plant.
- In case of flowers and vegetables the freshness by storage will be enhanced.
- Nutritional values of the field increases by using MR-X, MR-X makes humus (soil).
- MR-X is certified by ZEN-NOH that is known as National Federation of Agricultural Corporative Associations.
- **MR-X is a soil conditioner.**
- MR-X can be used for tea or coffee, taste and fragrance will be better.

### **Benefits of the product:**

1. By applying MR-X the productivity increases by almost 100%
2. Nutritional values increase, stronger fragrance.
3. Weight of product Increase.
4. Consumption of **Chemical fertilizer** is minimized.
5. Consumption of manure in case of organic products decreases. In case of rice, 50% decreases.
6. The plant's immunity towards possible disease increases. In case of cucumbers, thorns become long and strong and leaves are thicker. Therefore MR-X minimizes the plant to be infested by vermin (harmful insects)
7. MR-X improves (produces better) odor, taste and colour of the fruits or any products from the plant.
8. In case of flowers and vegetables the freshness by storage will be enhanced.
9. Nutritional values of the field increases by using MR-X, MR-X makes humus (soil).
10. MR-X is certified by ZEN-NOH that is known as National Federation of Agricultural Corporative Associations. **MR-X is a soil conditioner.**
11. MR-X can be used for tea or coffee, taste and fragrance will be better.
12. Sterilize normal bacteria and virus.
13. Deodorizer
14. Water (quality) purification
15. Antiseptic
16. Reduces consumption of Fertilizer
17. Life extension for flower
18. Reduction of death rate of Fish in Cargo (from 20% - 30% to 1% - 2%)
19. Reinforcement for freshly mixed concrete (10% up).
20. Protect iron (steel) frame works from corrosion etc.,

MR-X is in use in Japan since 2000 and we have got sufficient supporting documents and will be shown if your kindself give us time to present our demo.
